Education

Indian Institute of Technology (IIT) Mandi — Himachal Pradesh, India
M.Tech in Computer Science Engineering — *2025 – 2027*
- CGPA: 8.56 (Semester: 2/4)

Sant Baba Bhag Singh University — Jalandhar,Punjab , India
B.Tech in Computer Science Engineering — *2019 – 2023*
- CGPA: 7.3

Himalayan Public Senior Secondary School — Pandoh, Himachal Pradesh
Higher Secondary (12th Grade) — *2018 – 2019*
- Percentage: 82%

Experience

AI/ML Intern — Feb 2025 – Aug 2025
IIT Mandi iHub and HCi Foundation — *Himachal Pradesh, India*
- Worked on designing and implementing intelligent AI-driven systems using Machine Learning and Deep Learning techniques.
- Contributed to research-oriented projects involving computer vision and automation pipelines.
- Gained hands-on experience in model development, experimentation, and performance evaluation for real-world applications.

Certifications

Machine Learning — Jan 2024 – Feb 2024
Indian Institute of Technology (IIT) Mandi

Data Quality Analyst — Aug 2024 – Nov 2024
IIT Mandi iHub and HCi Foundation

Projects

Dynamic Hand Gesture Recognition System | *Deep Learning, Computer Vision,Multi Modality*
- Developed a multimodal deep learning system for dynamic hand gesture recognition robust to low-light environments using RGB and depth data from stereo cameras.
- Designed a CNN–LSTM architecture for spatial–temporal gesture modeling, utilizing depth sensing to mitigate illumination variability and improve recognition reliability.
- Implemented a real-time inference pipeline for live gesture recognition, enabling interactive applications in challenging lighting conditions.

Drone Assistant | *Computer Vision, NLP, RAG*
- Designed a two-phase intelligent system combining computer vision and natural language processing.
- Fine-tuned a YOLO-based model to detect and classify drone components from images and video streams.
- Built a Retrieval-Augmented Generation (RAG) pipeline enabling interactive querying of detected drone parts.

Technical Skills

Languages: Python, C/C++, SQL, HTML/CSS
Frameworks: Pytorch, Tensorflow, FastAPI
Deep Learning: CNNs, Transformers, Computer Vision Architectures
Developer Tools: Git, Docker, VS Code,PyCharm
Libraries: Pandas, NumPy, Matplotlib, OpenCV, Open3D

Languages

Hindi (Fluent), English (Intermediate) , Japanese (Beginner)
